

Wilton Water Commission

March 27, 2002

COMMISSIONERS PRESENT: Chairperson Jim Tuttle; Tom Herlihy & Charlie McGettigan.

CLERK: Diane Nilsson

AUDIENCE PRESENT: None

Jim Tuttle called the meeting to order at 7:55 p.m.

1. Minutes - February 27, 2001 MOTION: Mr. McGettigan moved to accept the 2/27/02 minutes as written. Mr. Tuttle seconded and all were in favor.
2. Ken Sullivan has sent two checks to the Town to pay for his water service. One check in the amount of \$1,000 and one in the amount of \$5,000. But the \$5,000 check had restrictions attached to it as to how the funds could be used so the board will not deposit either check until consulting with the Town attorney.
3. Sam Proctor lawsuit. The court hearing will go ahead as planned since no offer of payment was received from Mr. Proctor.
4. Stockwell Brook dam Emergency Action Plan: Mr. McGettigan will coordinate this in April.
5. Dam maintenance: The highway dept. will clean out the debris in the spillway & repair the outlet valves. Mr. McGettigan will get prices for a chain-link fence along the Sand Hill Road side of the right-of-way and extending down the stream below the dam.
6. David & Jane Glines: The commission still has not received the requested survey map.
7. New chlorination system: Electrician Mark Weissflogg read the manual for the new system before doing the electrical work. However, the manual said that the motor was 230, and Mark wired for 440. After the system was installed, Mr. McGettigan couldn't get it to work so he called A&D and they came out and changed the electrical input from 440 to 230. But an error was made during this process and when the motor was turned on, it burned out and blew a fuse as well. So it appears that mistakes were made all around. A&D said that they won't send any bills for the two service visits and will leave it up to the board as to whether it thinks they should pay for the motor replacement. The motor cost \$185. The board decided to pay for the motor and not charge A&D or Mark Weissflogg.
8. Second River Crossing: Gary @ R.H. White is not returning calls to Mr. McGettigan. Mr. McGettigan will call the Auburn office to find out if this company is interested in completing the work that they agreed to do.
9. Remaining water meter installations: Porter Plumbing completed a new installation at Plant residence & fixed problems at Lynne Brookshire's. Mr. McGettigan will have them look at doing the work at Regional Urban Development. He will also speak to Dick Tuttle about his two meter installations one more time before taking legal action.
10. Eastview Condos gate boxes & valves: Mr. McGettigan will do this job after the Dam maintenance & emergency action plan.

11. Overdue accounts: All overdue accounts are current except those that are being liened. Mr. McGettigan will follow through with those.
12. Quinn Bros. gravel operation on Route 31 South: Mr. McGettigan & Mr. Herlihy both reported that there appears to be no refueling pad at the gravel operation, as required by the planning board. Mr. McGettigan will contact the planning board and get a copy of the permit and see what all the requirements were.
13. Security issues; wells, pump station & standpipe. Continued to April meeting.
14. Consumer Confidence Report: Must be mailed by July 1.
15. Water Tank Painting: Mr. Herlihy will write the specs for this job.

A motion was made and all agreed to adjourn the meeting. The meeting adjourned at 9:40 p.m.

Respectfully submitted,

Diane Nilsson, Clerk, Posted: 4/2/02

ACTION ITEMS

Charlie McGettigan

- Complete Stockwell Brook Emergency Action Plan
- Complete Dam maintenance
- Get fencing quotes
- Call R.H. White Auburn office

Locate permit & minutes relating to Quinn Bros. gravel operation on Route 31 south

- Obtain rules & regs. from Jaffrey, Greenville & Merrimack
- Call John Wells @ Bob's Directional Boring to find out where we stand with them.
- Call Steve Byrd, Mark St. Cyr, Porter Plumbing and/or Hopkin and schedule these installations:

- Regional Urban Development
- Roedel expansion tank
- Dick Tuttle 2 meters
- Mazzuchelli relocate meter
- Others not on this list

- Locate valve on Eastview line. Install valves, gateboxes and T's at Eastview section of river crossing
- Replace and relocate hydrant on Russell Street
- Replace and relocate hydrant on Intervale Road
- Install 6" gate in main line at Dale & Laurel Hill Street
- Install blowoff valve at Sweeney residence

FUTURE PROJECTS

Congregational Church

Water line installation & meter @ Sam Proctor's on Madison Street
