

Wilton Downtown Riverwalk  
Phase 2 Vision Plan

# Presentation to the residents of Wilton

October 18, 2019

## Wilton Downtown Riverwalk Phase 2 Vision Plan

### Our charge for the Riverwalk design:

1. Build upon the Phase 1 path that has been completed
2. Connect from the upstream areas of the PD parking lot to both sides of the river
3. Locate a bridge across the river to create a loop to both sides of the river.
4. Create a new path along the Forest Road side of the river down to Main Street and Memorial Park.
5. Create opportunities to view and access the river from overlooks
6. Link the Riverwalk to be a part of the Main Street sidewalk and business district.
7. Sidewalk around the PO corner for safe walkability.
8. Integrate Riverwalk with Rivermill complex for riverbank stormwater and riverwalk path.
