

## **ROAD POSTINGS**

### **WEIGHT LIMIT 6 tons**

### **EFFECTIVE FEBRUARY 28th 2024**

The Town of Wilton D.P.W. has reviewed the weather for the next several weeks and has determined that with the spike in daytime temperatures well above freezing the Town of Wilton will be posting all of its gravel roads to a weight limit of 6 tons pursuant to RSA231:190/RSA231:191 in order to limit the potential damage to roads resulting from heavy truck traffic.

Town of Wilton roads will remain closed until the “freeze-thaw cycle” has concluded and adequate drying conditions have been observed.

Please be advised anyone looking to haul or have any delivery to contact the Wilton D.P.W. at 603-654-6602 for exemptions and delivery windows availability daily.

Thank you for your cooperation.

A list of affected roads has been included and only pertains to the gravel portions of any named road.
